

Welcome to Sweco's Capital Markets Day – infrastructure and environment in focus

Sweco invites journalists and financial analysts to attend a Capital Markets Day on 25 September in Stockholm, Sweden. We will start with a visit to tunnels that will eventually make up parts of the Norra Länken traffic route and will then move on to Sweco's office at Nackagatan for a presentation of the company's current environmental activities in China.

In addition, Mats Wäppling, Bo Jansson and Eva Nygren will provide a more in-depth look at Sweco's present situation and future plans. The day will be rounded off with a light buffet.

We look forward to seeing you there!

Mats Wäppling
