Sweco wins contract for the Trelleborg Line

Sweco has been chosen by the Swedish Transport Administration to plan the upcoming rebuilding of the Trelleborg Line. The contract is worth close to EUR 3.3 million and will begin immediately. The project is scheduled for completion in 2016.

"There are many infrastructure projects underway in the Öresund region, such as the planned extension of the Southern Main Line and the City Circle Line in Copenhagen. Sweco's expertise is in high demand we are in the process of recruiting many new consultants in this area," says Eva Nygren, President of Sweco Sweden.

The Trelleborg Line will be adapted for passenger traffic so that freight traffic can continue to operate at the same time that passenger traffic is introduced between Trelleborg and Malmö. The trains between Trelleborg and Malmö will pass through the City Tunnel. It will take around 30 minutes to travel from Trelleborg to central Malmö, and less than an hour to Copenhagen. This reinforcement of public transport will make it possible to move traffic from the road to the railway, and thereby reduce climate impact.

Facts about the assignment:

Sweco's assignment for the Lockarp - Trelleborg section: prepare a railway plan and a number of work plans, prepare documentation for the detail planning processes in the affected detail planned areas and prepare tender documents, construction documents, management documents and as-built drawings and records for these facilities.

Sweco is an international consulting group with combined expertise in consulting engineering, environmental technology and architecture. Sweco has 5,300 employees in 11 countries and recorded annual sales of more than SEK 5.3 billion in 2009. The company has projects currently underway in some 90 countries worldwide. Sweco is listed on NASDAQ OMX Stockholm AB.
