

PRESS RELEASE

5 April 2005

SWECO wins order from the Swedish Road Administration

A project has been launched to enlarge Road 45 between Gothenburg and Trollhättan. SWECO VBB has been awarded a contract worth over 1.3 million euros to prepare a work plan for one sub-section of the road between Alvhem and Kärra.

“Road 45 is in urgent need of widening and resurfacing. The road standard will be significantly enhanced through the addition of four new lanes, an investment that is necessary to provide capacity for day-to-day traffic and transport volumes”, says Lars Almqvist, Regional Manager at SWECO VBB.

Work is scheduled to begin shortly and to proceed until June 2006. The assignment will be carried out in collaboration between experts from several of the SWECO companies.

SWECO is the Nordic region's leading consulting company with combined expertise in engineering, environmental technology and architecture. In 2004 SWECO had an annual turnover of around SEK 3.1 billion and 3,600 employees. The company has projects currently under way in some 45 countries worldwide. The SWECO share is quoted on the O list of the Stockholm Stock Exchange.
